

EXPERIMENT 5

Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS

The image shows a web form titled "LIBRARY BOOK RESERVATION SYSTEM". The form is set against a light gray background. It contains several input fields and a dropdown menu. The fields are labeled "Students name" (with sub-labels "First Name" and "Last Name"), "Phone number", "Email", "I am a" (with a dropdown menu showing "Student" and "Faculty"), and "library ID". Below these is a section titled "MENTION THE BOOKS THAT U WANT TO RESERVE" which contains two rows of "Book Details" (with sub-labels "Title" and "Author"). At the bottom of the form is a green "Submit" button.
